# Assignment-4 (Bootstrap)

Subject: CSW1 (CSE2141)
Session: Sep 2022 to Jan 2023
Branch: CSE&CSIT Section: All

1. Create a page and add table. Make sure the table is responsive and renders nicely on all types of screen sizes.

2. Create a registration page and add fields like name, address, etc. to capture data. Also add alerts if user is going to close the window.

3. Create a page and add file upload functionality. Then add a progress bar so that you can show the progress of file upload.

4. Create a page to show data in a graphical form. Use bar and pie charts to show the last 7 days weather data.

5. Create a page and add Grid to show stock prices data of Apple.

6. Design a new year card gallery using bootstrap card. Card should contain the description about the card below the image with a link as shown below. You may add some more properties to give a nice look.

7. Design a front-end technology tutorial web page as follows using jumbotron, nav bar and pagination.

8. Design a webpage to upload your profile using bootstrap card and form as follows.

Example of viewing and managing an user profile picture in forms. The demo example includes other form inputs along with the file input for capturing picture and a form submit button to test the form submission. However note that the submission of form data to the server has not been enabled for this demo.
